Schwartz Rounds

Mission & Purpose

To promote *compassionate care* by strengthening the *human connection* at the heart of healthcare.
Schwartz Rounds started with one person...

Kenneth B. Schwartz
1954-1995
Schwartz Center Founder
• Ken was a relatively healthy healthcare attorney who died of lung cancer in 1995, at the age of 40.

• Ken shared his experience in an article in the Boston Globe Magazine in July, 1995, entitled: “A Patient’s Story”.

• Ken shared that in the year following his diagnosis, he was “subjected to chemotherapy, radiation, surgery and news of all kinds...most of it bad”.
As harrowing as this experience was, Ken noted that it was “punctuated by moments of exquisite compassion”.

“These acts of kindness – the simple touch of my caregivers have made the unbearable, bearable.”
In Ken’s Words...

• “In my new role as patient, I have learned that medicine is not merely about performing tests or surgeries, or administering drugs. These functions, important as they are, are just the beginning. For as skilled and knowledgeable as my caregivers are, what matters most is that they have empathized with me in a way that gives me hope and makes me feel like a human being, not just an illness. Again and again, I have been touched by the smallest kind gestures – a squeeze of my hand, a gentle touch, a reassuring word. In some ways, these quiet acts of humanity have felt more healing than the high dose radiation and chemotherapy that hold the hope of a cure.”
A few days before Ken’s death...

• He summoned his family and friends to his bedside and asked that they form a foundation to **ENSURE THAT HIS EXPERIENCE OF COMPASSIONATE HEALTHCARE WAS CONTINUED FOR OTHERS**.

• His family asked those who cared for Ken what would help them in continuing to offer the compassionate care Ken had received.

• The caregivers said that what would support them most, would be to have a place where they could share their experiences and draw strength and support from one another.

• And from this...Schwartz Rounds were born in 1997, at Massachusetts General Hospital...where Ken received his care.
Schwartz Rounds - Growth & Impact...

• Owing to the power and value of the process, Schwartz Rounds are now held in hundreds of sites across the US and in almost 200 sites in the UK, Canada, Australia and New Zealand. And now...right here in Visalia as well!

• Kaweah Health began offering Schwartz Rounds every other month in October, 2022...with seven sessions having occurred thus far and six sessions scheduled for the remainder of FY 24.

• Average attendance ranges from 40-50 hospital and medical staff members.
Kaweah Health Schwartz Rounds Topics

• My Why...What Keeps Me Going

• 2022 in Review: Gifts, Challenges and Memories

• The Patient Who Most Touched My Heart

• Caring for One Another – From Everyday Crises to Extreme Cases

• Ongoing Stressors in the Post Pandemic Era

• Turning the Other Cheek – Compassionate Care in the Face of Anger

• Caring for Our Own – When Coworkers and Family Become our Patients
What participants are saying...

• “I enjoyed and admire the sharing of personal feelings with experiences.”
• “Content was very helpful with opening eyes for things some don’t always see.”
• “I appreciate that there was a range of interdisciplinary teams…it gives a great perspective and is a great eye opener.”
• “Remember that simple acts of compassion matter – even if it’s just a hand on the back...remember to reach out, debrief and decompress.”
Schwartz Rounds – An Evidence-Based Practice

• In research published in: *Academic Medicine, The Journal of the Association of American Medical Colleges*, participants have noted:

• Improved teamwork, interdisciplinary communication, and appreciation for the roles and contributions of colleagues from different disciplines.

• Decreased feelings of stress and isolation, and more openness to giving and receiving support.

• Increased insight into the social and emotional aspects of patient care; increased feelings of compassion toward patients; and increased readiness to respond to patients’ and families’ needs.
Future Plans...

• Our most recent Schwartz Rounds session was held **Friday, October 6, 2023**, and marked the one year anniversary of Schwartz Rounds at Kaweah Health!

• Our next Schwartz Rounds session will be held Friday, **December 1, 2023**.

• We welcome all hospital staff, medical staff and medical learners to attend. Please sign up in Workday.

Thank you!
The pursuit of healthiness
Mission

To provide our residents with knowledge, skills and attitude needed for sustainable excellence by educating through direct service to our rural diverse community. Our focus is on community care and leadership, which we use to align with the institutional mission to achieve outstanding community health, deliver excellent service, provide an ideal work environment, and to empower through education.
Transitional Year Program PGY1

Major changes: Modified Learning Logs, surgery elective 2 vs 4wks, Coordinator/Manager moving to help SVMC

**Strengths**
Servant Leader Dr. Stanley is a true educator and team builder
Innovation for education & leadership
Strong program coordinator - Krystal De Azevedo
All rotations are at KH

**Weaknesses**
Few faculty members
Under-utilization of Associate Program Director
Patient safety education
Faculty evaluations

**Opportunities**
Promotion of best practices of education to other programs at KH
More recruitment of graduates to KH after subspecialty training
Fortifying pipelines

**Threats**
The nature of a TY program being reliant on other programs for clinical service
Many specialties incorporating TY year into categorical program
Transitional Year Performance on Institutional Indicators

Test performance
Step 3 Pass rates

Resident Survey
Information not lost during shift changes, patient transfers, or the hand-over process
Adequately manage patient care within 80 hrs/week

Faculty Survey
Participated in efforts to recruit diverse GME staff

Resident Survey
Education compromised by non-physician obligations
TY success stories for KH

- Filled all slots all 7 years
- All graduates get placed 100%
- 4 became KH categorical residents
