Proposal
Summary
Introduction

The Kaweah Health / UCSF Fresno Hospice and Palliative Medicine Fellowship relationship has been in existence since 2019-2020 academic year. Since then, we have had 3 graduating Kaweah Health Family Medicine residents match to their program, and 2 Emergency Medicine residents interview with them. By the end of this academic calendar, 3 graduating fellows will have maintained a formal relationship with KH upon completion of this fellowship.
## Component s of Education

<table>
<thead>
<tr>
<th>Representative primary and subspecialty palliative care skills in each domain</th>

Dr. Christopher Williams
Attending Physician, Medical Director of Palliative Medicine

2020–Present
Dr. Michael Nisco
Attending Physician, Medical Director of Hospice, Medical Director of Palliative Medicine
Primary goal

To expand access to Hospice and Palliative Medicine services at Kaweah Health by “growing our own.”
“Growing Our Own”

Contributing to the professional development of local learners who are most likely to continue serving our community.

- extensive published material to support the fact that residents are most likely to practice within 80 miles of where they completed residency.
Business opportunities are like buses. There's always another one coming.

Richard Branson

But I might suggest that recruitment opportunities for well-qualified and good-fit physicians to help build our local programs will be less frequent if we forfeit our involvement with the UCSF Fresno Hospice and Palliative Medicine Fellowship.
Meet our team
Areas if Opportunity in our Community

...historically speaking, has been a late adopter of palliative medicine services. However, physician appreciation of the services we offer to improve the quality of care provided to patients and their families across multiple settings is rapidly increasing.

The opportunities to integrate palliative medicine into the outpatient setting are growing:
- incorporation of a palliative medicine clinic into the Sequoia Regional Cancer Center
- providing virtual palliative medicine consultations with patients currently being served by our Kaweah Health Home Based Palliative Medicine Service
- Expansion of palliative consultation services into Skilled Nursing Facilities.
- Earlier involvement of palliative services in the Emergency Department and ICU settings to ensure goal-concordant care in the acute care settings.
Why support this effort?

As an individual
Do you believe in the work our HPM programs do?
Have you or someone you love had an impactful experience?
Do you wish to show gratitude to those who can do this kind of work?
Are you passionate about increasing the health of your community?
Do you appreciate the need for training and education to become a world-class expert in the field?

As a Foundation
Does financial support of this program align with our mission, vision, and pillars?
Does this program have a positive impact on the health and wellness of our employees?
Is there currently an unmet need?
Timeline

2019 - 2022
1.0 FTE contribution

Jan 2023
The current budget season

2022 - 2023
0.0 FTE contribution

0.5 FTE contribution so our recruitment pipeline doesn’t dry up.

Goal for 2023 – 2024 academic year
How we get there

**Sustaining investment**

Kaweah Health Foundation contributes 0.25 FTE of financial support.

Kaweah Health Hospice Foundation matches 0.25 FTE financial support.

**Continue to promote**

Ensure our GME residents have an awareness of the fellowship program and elective experiences in palliative medicine.

Encourage top performers to pursue fellowship training with incentive to join program upon completion.

**Improve access to services and quality of healthcare**

Integrate palliative consultation into emergency department and intensive care settings.

Maximize timely engagement of specialty level palliative services.

Cultivate new programs in the outpatient setting.
Summary

At Kaweah Health, health is our passion. Excellence is our focus. Compassion is our promise. To be our community’s healthcare choice, for life, we must continue to develop our specialty level services for those living with complex and serious illness, as well as those approaching end of life.
Thank you
